INDEX OF SUBJECTS

A Century of Mycology, edited by B. C. Sutton, reviewed by J. M. Hirst, 250

Adoption potential of hedgerow intercropping in maize-based cropping systems in the highlands of western Kenya. 1. Background and agronomic evaluation (Shepherd, Ndufa, Ohlsson, Sjogren and Swinkels), 197; 2. Economic and farmers' evaluation (Swinkels and Franzel), 211

Agroclimatic potential of the forest–savanna transition zone of Nigeria for the cultivation of sorghum (an investigation of) (Bello), 157

Ainsworth and Bisby's: Dictionary of the Fungi. (Eighth Edition.), by D. L. Hawksworth, P. M. Kirk, B. C. Sutton and D. N. Pegler, reviewed by J. M. Hirst, 250

Apple Scab: Biology, Epidemiology and Management, by W. E. MacHardy, reviewed by J. M. Hirst, 251

Atriplex halimus and *Salsola vermiculata* and the effects of storage conditions and the presence of fruiting bracts on germination (Osman and Ghassali), 149

Beans (common) and genotype evaluation: the case of eastern Ethiopia (Mekbib), 399

Beans (common) and screening accessions for resistance to charcoal rot (*Macrophomina phaseolina*) in eastern Kenya (Songa, Hillocks, Mwango'mbe, Buruchara and Ronno), 459

Beans and maize in intercropping and a study of the partitioning of applied nitrogen (Siame, Willey and Morse), 35

Bioaerosols Handbook, edited by C. S. Cox and C. M. Wathes, reviewed by F. Th. M. Spieksma, 113

Biodiversity and Agricultural Intensification – Partners for Development and Conservation. Environmentally Sustainable Development Studies and Monograph Series No. 11, edited by J. P. Srivastava, N. J. H. Smith and D. A. Forno, reviewed by J. E. Jackson, 386

Bolivia and farmer involvement in selecting new varieties of potatoes (Thiele, Gardner, Torrez and Gabriel), 275

Breeding Field Crops. (Fourth Edition.), by J. M. Poehlmann, reviewed by L. K. Jones, 114

Cabbage and hot pepper and the on-farm assessment of two liming materials on acid sulphate soil in Guyana (Brandjes and Lauckner), 225

Camellia sinensis see Tea

Cassava varietal response to fertilization: growth dynamics and implications for cropping sustainability (Pellet and El-Sharkawy), 353

Cassava-based cropping systems and losses of organic matter and nutrients by water erosion (Ruppenthal, Leihner, Steinmüller and El-Sharkawy), 487

Charcoal rot (*Macrophomina phaseolina*) and screening common bean accessions for resistance in eastern Kenya (Songa, Hillocks Mwango'mbe, Buruchara and Ronno), 459

Chelated and non-chelated metals (foliar application) for supplying micronutrients to wheat grown on calcareous soil (Modaihsh), 237

Chickpea and lentil grown in a Mediterranean-type environment and the proportion of total nitrogen and fixed nitrogen in shoots (Pilbeam, Wood and Jones), 139

Client-oriented breeding strategy (a), by on-station farmer participatory varietal evaluation (Baidu-Forson), 43

Climate Variability, Climate Change and Social Vulnerability in the Semi-arid Tropics, by J. C. Ribot, A. R. Magalhães, and S. S. Panagides, reviewed by J. L. Monteith, 251

Coconuts and the performance of grass–legume pastures below (Mullen, Rika, Kaligis and Stür), 409

Coffee (improved robusta) and its response to location and management practices in Ghana (Amoah, Osei-Bonsu and Oppong), 103

Colombian hillside farm and determinants of sustainability (Hansen, Knapp and Jones), 425

Costs, Benefits, and Farmer Adoption of Agroforestry: Project Experience in Central America and the Caribbean, edited by D. Current, E. Lutz and S. Scherr, reviewed by R. R. B. Leakey, 385

Cotton and the implementation of integrated pest management (Mathews) 15

Cotton Production Prospects for the Next Decade. (World Bank Technical Paper No. 287.), by F. E. M. Gillham, T. M. Bell, T. Arin, G. A. Mathews, C. Le Remeur and A. B. Hearn, reviewed by N. L. Innes, 119

Covariance of plot errors and an assessment of their effect over time on the precision of means of

rotations with wheat (Singh, Christiansen and Chakraborty), 469

Crop Evolution, Adaptation and Yield, by L. T. Evans, reviewed by J. M. Hirst, 249

Crop plants and genetic engineering: from genome to gene (Forster, Lee, Lundqvist, Millam, Vamling and Wilson), 15

Cultivated Vegetables of the World, by S. J. Kays and J. C. S Dias, reviewed by H. D. Tindall, 499

Diseases of Tropical Pasture Plants, edited by J. H. Lenn and P. Trutmann, reviewed by B. C. Clifford, 113

Drought and temperature response of young tea (*Camellia sinensis*) clones. 3. Shoot extension and development (Burgess and Carr), 367

Dynamics of Weed Populations, by R. Cousens and M. Mortimer, reviewed by J. Marshall, 118

Economic return, yields, risk and management practices to improve lowland subtropical summer tomato production (Midmore, Roan and Wu), 125

Ethiopia (eastern) (the case of) and farmer participation in common bean genotype evaluation (Mekbib), 399

Fallow (bare), grass and sorghum in semi-arid Kenya and soil nitrate variations below (Warren, Atwal and Irungu), 321

Farmer involvement in selecting new varieties: potatoes in Bolivia (Thiele, Gardner, Torrez and Gabriel), 275

Farmer participation in common bean genotype evaluation: the case of eastern Ethiopia (Mekbib), 399

Farmer participatory varietal evaluation on-station: a strategy for client-oriented breeding (Baidu-Forson), 43

Farmers' involvement in the design of a low-input control programme for sesame flea beetles in southern Tanzania (Mponda, Gibbon, Arthur and Morse), 313

Fertilization effect on growth dynamics of cassava varieties and implications for cropping sustainability (Pellet and El-Sharkawy), 353

Fertilizer (mineral and organic) in various agro-ecological environments in Kenya and the response of Irish potatoes (*Solanum tuberosum* L.) (Recke, Schnier, Nabwile and Qureshi), 91

Field experiments on terraces and the optimization of plot size and shape (Poultney, Riley and Webster), 51

Fluted pumpkin and the effect of time interval between pod set and harvesting on the maturity and seed quality of fluted pumpkin (Adetunji), 449

Fodder weeds and millet leaves (quality and quantity) for ruminants in agro-pastoral systems of the Sahel, and the effects of millet crop residues and phosphorus application (Buerkert, Lamers, Schmelzer, Becker and Marschner), 253

Food and Feed from Legumes and Oilseeds, edited by E. Nwokola and J. Smartt, reviewed by P. R. Shewry, 118

Fundamentals of Soil Ecology, by D. C. Coleman and D. A. Crossley, reviewed by P. Harris, 501

Genetic engineering of crop plants: from genome to gene (Forster, Lee, Lundqvist, Millam, Vamling and Wilson), 15

Germination of *Salsola vermiculata* and *Atriplex halimus* and the effects of storage conditions and the presence of fruiting bracts (Osman and Ghassali), 149

Ghana and the response of improved robusta coffee to location and management practices Amoah, Osei-Bonsu and Oppong), 103

Glycinebetaine (foliar application of) effect on yield components of drought-stressed tobacco plants (Agboma, Peltonen-Sainio, Hinkkanen and Pehu), 345

Governments, Farmers and Seed in a Changing Africa, by E. Cromwell, reviewed by E. Roberts, 499

Grass, sorghum and bare fallow in semi-arid Kenya and soil nitrate variations below (Warren, Atwal and Irungu), 321

Grass-legume pasture performance under coconuts in Indonesia (Mullen, Rika, Kaligis and Stür), 409

Guyana (on acid sulphate soils), on-farm assessment of two liming materials in cabbage and hot pepper cultivation (Brandjes and Lauckner), 225

Gypsum application and Karnal grass for the microbiological and chemical amelioration of alkaline soil (Batra, Kumar, Manna and Chhabra), 389

Hedgerow intercropping and its adoption potential in maize-based cropping systems in the highlands of western Kenya. 1. Background and agronomic evaluation (Shepherd, Ndufa, Ohlsson, Sjögren and Swinkels), 197; 2. Economic and farmers' evaluation (Swinkels and Franzel), 211

Indonesia and the performance of grass–legume pastures under coconuts (Mullen, Rika, Kaligis and Stür), 409

Insect Natural Enemies: Practical Approaches to their Study

and Evaluation, by M. Jervis and N. Kidd, reviewed by D. Glen, 248
Integrated pest management implementation in cotton (Mathews) 1
Integrated Pest Management in the Tropics: Current Status and Future Prospects, edited by A. N. Mangech, K. N. Saxena and H. N. B Gopalan, reviewed by D. Glen, 247
Intercropping maize and beans and a study of the partitioning of applied nitrogen (Siame, Willey and Morse), 35
Intercropping, compensation and the modelling of long-term yield effects using data from a field experiment (Morse, Willey and Nasir), 291

Karnal grass and gypsum application for the microbiological and chemical amelioration of alkaline soil (Batra, Kumar, Manna and Chhabra), 389
Kenya (eastern) and screening common bean accessions for resistance to charcoal rot (*Macrophomina phaseolina*) (Songa, Hillocks Mwango'mbe, Buruchara and Ronno), 459
Kenya (semi-arid) and soil nitrate variations under grass, sorghum and bare fallow (Warren, Atwal and Irungu), 321
Kenya (western highlands) and the adoption potential of maize-based cropping systems. 1. Background and agronomic evaluation (Shepherd, Ndufa, Ohlsson, Sjögren and Swinkels), 197; 2. Economic and farmers' evaluation (Swinkels and Franzel), 211
Kenya and the response of Irish potatoes (*Solanum tuberosum* L.) to mineral and organic fertilizer in various agro-ecological environments in Kenya (Recke, Schnier, Nabwile and Qureshi), 91

Land Quality Indicators, C. Pieri, J. Dumanski, A. Hamblin and A. Young, reviewed by P. B. Tinker, 499
Leaf area measurement of detached leaves, a simple and low-cost method (Korva and Forbes), 65
Lentil and chickpea grown in a Mediterranean-type environment and the proportion of total nitrogen and fixed nitrogen in shoots (Pilbeam, Wood and Jones), 139
Liming materials (two) and their on-farm assessment for cabbage and hot pepper cultivation on acid sulphate soil in Guyana (Brandjes and Lauckner), 225
Lost Crops of Africa: Volume 1. Grains, by the Board on Science and Technology for International Development, reviewed by F. G. H. Lupton, 249

Macrophomina phaseolina see charcoal rot
Maize and beans in intercropping and a study of the partitioning of applied nitrogen (Siame, Willey and Morse), 35
Maize and plant population density dynamics under farmers' management in the Western Hills of Nepal (Subedi and Dhital), 189
Maize-based cropping systems in the highlands of western Kenya and the adoption of hedgerow intercropping. 1. Background and agronomic evaluation (Shepherd, Ndufa, Ohlsson, Sjögren and Swinkels), 197 2. Economic and farmers' evaluation (Swinkels and Franzel), 211
Management practices to improve lowland subtropical summer tomato production: yields, economic return and risk (Midmore, Roan and Wu), 125
Microbiological and chemical amelioration of alkaline soil by growing Karnal grass and gypsum application (Batra, Kumar, Manna and Chhabra), 389
Micronutrients supplied by foliar application of chelated and non-chelated metals for wheat grown on calcareous soil (Modaihsh), 237
Milk and pastures at the frontier: the case of the Peruvian forest margins (Vera, Reátegui and Loker), 265
Millet leaves and fodder weeds (quality and quantity) for ruminants in agro-pastoral systems of the Sahel and the effects of millet crop residues and phosphorus application (Buerkert, Lamers, Schmelzer, Becker and Marschner), 253
Modelling the Impact of Climatic Change on Rice production in Asia, edited by R. B. Mathews, M. J. Kropff, D. Bachelet and H. H. van Laar, reviewed by J. L. Monteith, 114
Modelling the long-term yield effects of compensation in intercropping using data from a field experiment (Morse, Willey, and Nasir), 291
Molecular Basis of Virus Evolution, edited by A. J. Gibbs, C. H. Calisher and F. Garcia-Arenal, reviewed by B. D. Harrison, 115

The Neem Tree Azadirachta indica *A. Juss. and Other Meliaceous Plants: Source of Unique Products for Integrated Pest Management, Medicine, Industry and Other Purposes*, edited by H. Schmutterer, reviewed by A. Blackwell, 247
Nepal (Western Hills) and plant population density dynamics of maize under farmers' management in the Western Hills of Nepal (Subedi and Dhital), 189
Nigeria (forest–savanna transition zone) and an investigation of the agroclimatic potential for the cultivation of sorghum (Bello), 157
Nitrogen (proportion of total and fixed) in shoots of lentil and chickpea grown in a Mediterra-

nean-type environment (Pilbeam, Wood and Jones), 139
Nitrogen and a study of partitioning the application between maize and beans in intercropping (Siame, Willey and Morse), 35

On-farm assessment of two liming materials in cabbage and hot pepper cultivation on acid sulphate soil in Guyana (Brandjes and Lauckner), 225
On-farm varietal diversity and its enhancement through participatory varietal selection: a case study for *chaite* rice in Nepal (Joshi, Subedi, Rana, Kadayat, and Sthapit), 335
Organic matter and nutrient loss caused by water erosion in cassava-based cropping systems (Ruppenthal, Leihner, Steinmüller and El-Sharkawy), 487

Participatory on-farm research and its statistical literature (Riley and Alexander), 73
Participatory varietal evaluation on-station by farmers: a strategy for client-oriented breeding (Baidu-Forson), 43
Participatory varietal selection for enhancing on-farm varietal diversity: a case study for *chaite* rice in Nepal (Joshi, Subedi, Rana, Kadayat, and Sthapit), 335
Pastures and milk at the frontier: the case of the Peruvian forest margins (Vera, Reátegui and Loker), 265
Pepper (hot) and cabbage and the on-farm assessment of two liming materials on acid sulphate soil in Guyana (Brandjes and Lauckner), 225
Peruvian forest margins (the case of): milk and pastures at the frontier (Vera, Reátegui and Loker), 265
Phosphorus and millet crop residue application affect the quantity and quality of millet leaves and fodder weeds for ruminants in agro-pastoral systems of the Sahel (Buerkert, Lamers, Schmelzer, Becker and Marschner), 253
Pigeonpea in simultaneous fallow-cropping systems in the subhumid forest–savanna mosaic zone of West Africa (Böhringer and Leihner), 301
Plot size and shape optimization for field experiments on terraces (Poultney, Riley and Webster), 51
Potatoes ((Irish) *Solanum tuberosum* L.) and their response to mineral and organic fertilizer in various agro-ecological environments in Kenya (Recke, Schnier, Nabwile and Qureshi), 91
Potatoes in Bolivia: farmer involvement in selecting new varieties (Thiele, Gardner, Torrez and Gabriel), 275
Principles of Seed Science and Technology. (Third Edition.), by L. O. Copeland and M. B. McDonald, reviewed by E. H. Roberts, 116
Return to Resistance: Breeding Crops to Reduce Pesticide Dependence, by R. A. Robinson, reviewed by N. W. Simmonds, 119
The RGA History of the Plantation Industry in the Malay Peninsula, D. J. M. Tate, reviewed by N. W. Simmonds, 500
Rice (chaite) case study in Nepal: enhancing on-farm varietal diversity through participatory varietal selection (Joshi, Subedi, Rana, Kadayat, and Sthapit), 335

Sahel (the), and the effects of millet crop residues and phosphorus application on the quantity and quality of millet leaves and fodder weeds for ruminants in agro-pastoral systems (Buerkert, Lamers, Schmelzer, Becker and Marschner), 253
Salsola vermiculata and *Atriplex halimus* and the effects of storage conditions and the presence of fruiting bracts on germination (Osman and Ghassali), 149
Screening common bean accessions for resistance to charcoal rot (*Macrophomina phaseolina*) in eastern Kenya (Songa, Hillocks Mwango'mbe, Buruchara and Ronno), 459
Seedborne Diseases and their Control: Principles and Practice, by R. B. Maude reviewed by D. A. Perry, 387
Senegal (Niayes zone) and the development of vegetable cropping systems (De Bon, Faye and Pages), 83
Sesame flea beetles and farmer involvement in the design of a low-input control programme in southern Tanzania (Mponda, Gibbon, Arthur and Morse), 313
Single cropping comparison with relay cropping and double cropping for soyabeans with wheat using cultivar blends (Jacques, Bacon and Parsch), 477
Soil (alkaline) and its microbiological and chemical amelioration by growing Karnal grass and gypsum application (Batra, Kumar, Manna and Chhabra), 389
Soil Microbiology and Biochemistry. (Second Edition.), by E. A. Paul and F. E. Clark, reviewed by B. Griffiths, 385
Soil nitrate variations under grass, sorghum and bare fallow in semi-arid Kenya (Warren, Atwal and Irungu), 321
Solanum tuberosum see Potatoes
Sorghum cultivation and an investigation of the agroclimatic potential of the forest–savanna transition zone of Nigeria (Bello), 157
Sorghum, grass, and bare fallow in semi-arid Kenya and soil nitrate variations below (Warren, Atwal and Irungu), 321
Soyabeans in single cropping, relay cropping and

double cropping with wheat compared using cultivar blends (Jacques, Bacon and Parsch), 477

Statistical literature for participatory on-farm research (Riley and Alexander), 73

Statistical Methods for Plant Variety Evaluation, edited by R. A. Kempton and P. N. Fox, reviewed by N. W. Simmonds, 386

Storage conditions (effects of) and the presence of fruiting bracts on the germination of *Atriplex halimus* and *Salsola vermiculata* (Osman and Ghassali), 149

Strengthening National Agricultural Research Systems in Eastern and Central Africa. (World Bank Technical Paper No. 290.), by J. Weijenberg, M. Dagg, J. Kampen, M. Kalunda, A. N. Mailu, S. Ketema, L. Navarro and M. A. Noor, reviewed by P. Mosely, 116

Sustainability determinants of a Colombian hillside farm (Hansen, Knapp and Jones), 425

Sustainable Dryland Farming: Combining Farmer Innovation and Medic Pasture in a Mediterranean Climate, by L. Chatterton and B. Chatterton, reviewed by P. R. Goldsworthy, 248

Tanzania (southern) and farmers involvement in the design of a low-input control programme for sesame flea beetles (Mponda, Gibbon, Arthur and Morse), 313

Tea (*Camellia sinensis*) and the responses of young clones to drought and temperature. 3. Shoot extension and development (Burgess and Carr), 367

Technology Transfer: Making the Most of Your Intellectual Property, by N. F. Sullivan, reviewed by R. K. Atkin, 117

Temperature and drought response of young tea (*Camellia sinensis*) clones. 3. Shoot extension and development (Burgess and Carr), 367

Tobacco (drought-stressed plants) and the effect of foliar application of glycinebetaine on yield components (Agboma, Peltonen-Sainio, Hinkkanen and Pehu), 345

Tomato (lowland subtropical summer production) and management practices to improve yields, economic return and risk (Midmore, Roan and Wu), 125

The Tropical Rain Forest. Second Edition, by P. W. Richards, reviewed by G. D. Holmes, 500

Vegetable cropping systems and their development in the Niayes zone of Senegal (De Bon, Faye and Pages), 83

Water erosion and losses of organic matter and nutrients in cassava-based cropping systems (Ruppenthal, Leihner, Steinmüller and El-Sharkawy), 487

Weed management (low-input) and conservation tillage in semi-arid Zimbabwe (Riches, Twomlow and Dhliwayo), 173

West Africa (subhumid forest–savanna mosaic zone) and pigeonpea in simultaneous fallow-cropping systems (Böhringer and Leihner), 301

Wheat and a comparison of single cropping, relay cropping and double cropping of soyabeans using cultivar blends (Jacques, Bacon and Parsch), 477

Wheat and an assessment of the effect of covariance of plot errors over time on the precision of means of rotations with wheat (Singh, Christiansen and Chakraborty), 469

Wheat grown on calcareous soils and the foliar application of chelated and non-chelated metals for supplying micronutrients (Modaihsh), 237

The World Bank and Irrigation (A World Bank Operations Evaluation Study), by W. J. Jones, reviewed by R. F. Stoner, 115

Yields, economic return and risk and management practices to improve lowland subtropical summer tomato production (Midmore, Roan and Wu), 125

Zimbabwe (semi-arid) and low-input weed management and conservation tillage (Riches, Twomlow and Dhliwayo), 173
